

**University of Mosul**  
**Administration and Economic College**  
**Dept. of Business Administration**

**Vision:**

Achieving excellence and leadership in scientific research and administrative sciences, activating the bonds of community partnership, and enrich 'hing the labor market with graduates with diverse management skills.

**Mission:**

To provide the community with graduates with leadership, intellectual and technical skills, as well as to provide an academic research environment for students and teachers enriching the community with its scientific and applied results, inspired by the reality of the labor market and the local environment, benefiting from international experiences and keeping up with the challenges of the contemporary environment.

**Objectives:**

1. Developing students' creative thinking skills, and encouraging them to contribute in solving the problems experienced by government institutions through scientific research.
2. Graduating students with creative and cognitive skills that contribute in development of the labor market and society.
3. Upgrading the educational process through the implementation of academic accreditation programs and trying to obtain a certificate of quality assurance.
4. Activate the bonds with employers of community companies in the local market, and government institutions in order to achieve social and economic development.
5. Activating the relations between the teaching staff and the various governmental institutions through holding seminars, workshops, and holding scientific conferences that highlight the real problems of the institutions in order to find successful solutions to them through scientific research.
6. Providing administrative consultations to all institutions and sectors in the community.
7. Developing the skills of individuals working in governmental institutions through training courses in the continuing education program.
8. Developing scientific competencies through graduate programs in the department (diploma, master, PhD), as well as evening study in the department.
9. Contribute to strengthening the ties of scientific cooperation between the matching departments in the colleges of Iraqi and Arab universities.
10. Contribute to the promotion of the University of Mosul's status in the local, Arab and international community through the scientific outputs of the professors in publishing within the local, Arab and international journals, and their active participation in Arab and international seminars and conferences as researchers, members, committees and arbitrators.
