

## **Overview of the Industrial Management Department**

Reasons for the Establishment of the Department:

Reinforcing the field of management and expanding the scientific and technical frameworks for the management and economics specialization.  
Securing the human resources specialized in industrial development.  
The need for specialized professionals in government agencies.  
Providing specialized management staff capable of harmonizing intellectual concepts with practical methods, aligning with the goals of education in colleges of management and economics.  
Completing the necessary foundations for establishing an Iraqi administrative school.

Historical Milestones:

١٩٨٧-١٩٨٦: Establishment of the Industrial Management branch within the Business Administration Department.  
١٩٨٨-١٩٨٧: The Atomic Energy Organization and the Military Manufacturing Authority contract graduates from the department.  
١٩٩٥-١٩٩٤: Transformation of the Industrial Management branch into the Industrial Management Department.  
١٩٩٦-١٩٩٥: Many ministries requested contracts with graduates from the department, including the Ministry of Oil and the Ministry of Industry and Minerals.  
٢٠٠٠-١٩٩٩: Initiation of the Master's program in the department.  
٢٠١٢-٢٠١١: Initiation of the Higher Diploma in Industrial Management.  
٢٠٢٠-٢٠١٩: Initiation of the Higher Diploma in Quality Management.  
٢٠٢٠-٢٠١٩: Initiation of the Ph.D. program in Industrial Management - Production and Operations Management.

Department's Mission:

As we continue to support our college and university's strategy of focusing on the educational process and serving the community, our department will adopt a philosophy of continuous improvement in the quality of its operations. We aim to achieve a satisfactory level of satisfaction among those who interact with the department and aspire to make significant contributions to the Iraqi industry through our graduates.

Department's Objectives:

Focus on the quality of education in the Industrial Management field.  
Prepare students both academically and practically for employment in organizations by selecting qualified human resources, providing suitable labs and workshops, and committing to the quality of the educational process, continuously working on its development.

Department's Strategies:

Achieve and maintain the top position among comparable departments in Iraq.  
Stay up-to-date with the latest developments in Industrial Management topics.  
Continuously improve the qualifications of department faculty in terms of academic degrees and certifications.  
Contribute to enhancing the relationship between the university and the local community through continuous education activities, consultancy contracts, or areas of application for postgraduate research.

Develop and enhance the creative capabilities of department students in undergraduate and postgraduate studies.

Department's Procedures:

Attract competent specialized faculty members.

Encourage research activities for professors and postgraduate students.

Establish strict criteria for selecting department students, especially those coming from the high school's specialization in the department's field.

Nominate faculty members for development programs (e.g., computer skills, teaching methods).

Facilitate communication among department members.

Encourage department faculty to participate in scientific and international conferences.

Seek and comply with international administrative education standards, while striving to obtain local and Arab accreditations.

Identify the obstacles to the overall department's performance and build effective strategies to overcome them.

Continuously benchmark with similar departments worldwide, especially those with international recognition.

Heads of the Industrial Management Department:

Dr. Bassam Faisal Al-Mahjoub (١٩٩٣-١٩٩٧).

Assoc. Prof. Dr. Mohammed Ahmed Al-Matyouti (١٩٩٧-٢٠٠٠).

Assoc. Prof. Dr. Abdulghani Hussein Al-Mashhadani (٢٠٠١-٢٠٠٣).

Dr. Akram Ahmed Al-Taweel (٢٠٠٣-٢٠٠٧).

Dr. Maisar Ibrahim Ahmed Al-Jubouri (٢٠٠٨-٢٠١٢).

Dr. Akram Ahmed Al-Taweel (٢٠١٢-٢٠١٤).

Dr. Maisar Ibrahim Ahmed Al-Jubouri (٢٠١٤-٢٠٢٠).

Dr. Raad Adnan Raouf Al-Hamdani (٢٠٢١-present).
