3. Semester / Year:				
First semester – 2023/2024				
4. Description Preparation Date:				
1-9-2023				
5. Available Attendance Forms:				
In presence				
6. Number of Credit Hours (Total) / N	Number of Units (Total)			
30/307. Course administrator's name (m				
Name: Dr.Oday Salim Ali Email: audy_salem@uomosul.edu. 8. Course Objectives	<u>iq</u>			
Course Objectives	- Enabling students to acquire knowledge			
	in the field of public finance			
	- Enabling students to understand the			
	role of the state in the economy			
	- Enabling students to understand how to			
	prepare government budgets of various			
types				
- To contribute to the graduation				
specialized cadres with various				
	such as tax accounting and budget			
	preparation			
9. Teaching and Learning Strategies				

- Lecture (indoctrination)

Strategy

- -Discussion
- Questions and answers Preparing reports and assignments Oral and written examinations

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	Understand the topic of the unit	The role of the state in economic activity and the failure of the market mechanism	Preparation and discussion	questions and answers
2	2	Understand the topic of the unit	Public spending divisions	Preparation and discussion	questions and answers
3	2	Understand the topic of the unit	Expenditures, their components and their scientific and practical division	Preparation and discussion	questions and answers
4	2	Understand the topic of the unit	Economic effects of public expenditures	Preparation and discussion	questions and answers
5	2	Understand the topic of the unit	The real and apparent reasons for increasing expenditures	Preparation and discussion	exam
6	2	Understand the topic of the unit	Revenues, tax divisions, dimensions	Preparation and discussion	questions and answers
7	2	Understand the topic of the unit	The legal basis of the tax	Preparation and discussion	questions and answers
8	2	Understand the topic of the unit	Public revenue efficiency	Preparation and discussion	questions and answers
9	2	Understand the topic of the unit	Economic effects of taxes	Preparation and discussion	questions and answers
10	2	Understand the topic of the unit	Sustainability of fiscal policy	Preparation and discussion	exam
11	2	Understand the topic of the unit	The concept of budget and its rules	Preparation and discussion	questions and answers
12	2	Understand the topic of the unit	Traditional budget (items)	Preparation and discussion	questions and answers
13	2	Understand the topic of the unit	Program and performance budget	Preparation and discussion	questions and answers

14	2	Understand the topic of the unit	Zero-ł budge			Preparation and discussion	questions and answers
15	2	Understand the topic of the unit	Budget programming and planning		Preparation and discussion	exam

Course Description Form

1. Course Name:

Financial markets

2. Course Code:

3. Semester / Year:

The first is 2023-2024

4. Description Preparation Date:

1/10/2023

5. Available Attendance Forms:

Classrooms

6. Number of Credit Hours (Total) / Number of Units (Total)

3/2

7. Course administrator's name (mention all, if more than one name)

Name: D.R. Doaa Noman Al-Husseini Email: duaa numaan@uomosul.edu.iq

8. Course Objectives

Course Objectives

Developing and activating the creative and applie capabilities of students in various financial and banking fields.

- 2-Developing the knowledge partnership betweer the department and the labor market.
- 3- Providing students with knowledge of all prog specializations
- 4- Developing mental abilities by expanding the cognitive horizon for all program specializations
- 5- The ability to analyze problems
- 6- Applying theoretical concepts, rules and laws
- 7- Giving students the ability to link various financial and banking variables
- 8- Evaluating and judging applied cases

- 9- The ability to discover problems and solve the in modern ways
- $10\,$ Using real–life examples and matching them with theoretical studies
- 11 Developing capabilities to use modern technologies in financial and banking sciences

9. Teaching and Learning Strategies

Lecture with discussions -Preparing reports according to approved vocabulary - Daily, weekly, monthly homework - Daily and quarterly tests - smart board -Power Point questions and answers

10. Course Structure

Week	Hou rs	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	3	How to Classify	Capitalmarket theoriesand strategi	Theoretical lecture	discussion
2-3	6	Definition of ty of information	Information asymmetry	Theoretical lecture	discussion
4	3	How to reach	Abnormal returns in capital market	Theoretical lecture	Discussion
5-6	6	Identify the risks	Risks affecting the stomarket	Theoretical lecture	Discussion
7-8	6	Benefits of indi for investors	Stock price indices	Theoretical lecture	Discussion
9	3	Knowing the lev	Capital market et efficie	Theoretical lecture	Discussion
10-11	6	How to measure	Financial transparency in capital market	Theoretical lecture	Discussion
12	3	the influence	Development of financial markets and economic growth	Theoretical lecture	Discussion
13-14	6	See photos	Images of manipulation in financial markets and its effects	Theoretical lecture	Discussion
15	3				Discussion testing

11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

Final exam: 70 marks Semester exam: 10 marks Daily exam: 5 marks

Daily preparation 5 degrees Report 10 marks

6. Number of Credit Hours (Total) / Number of Units (Total)

30/30

7. Course administrator's name (mention all, if more than one name)

Name: Dr. mayada salah aldeen taj aldeen Email: Mayada_Salahalden@uomosul.edu.iq

Name: Dr. Laila Abdulkarem Mohamad Email: Layla_abdulkarem@uomosul.edu.iq

8. Course Objectives

Course Objectives

- Enabling students to acquire knowledge in the field of scientific research ethics in terms of dealing with (knowledge and science and the difference between them, the concept of scientific research, levels of research in the stages of graduate studies and beyond, problems and difficulties facing scientific research and ways to solve characteristics of the scientific researcher, scientific behavior of the researcher, principles Ethics. capabilities competencies that characterize the scientific researcher, the qualifications of the scientific researcher, moral values, means of enhancing the ethics of scientific research, scientific honesty).
- Enabling students to understand the types of scientific research according to (its nature, methods, and implementing agencies).

- Introducing students to scientific research methods represented by (the historical method, the descriptive method, the experimental method, the inductive method, the deductive method, and the comparative method).
- Introducing students to the scientific research plan and the importance of getting to know its paragraphs (research title, research problem, research hypotheses, importance of research, research objectives, research methodology, research tools, research population and sample, research limits, previous studies, research terms, research structure, sources). and references).
- Understand what is meant by plagiarism and what are its types (forms).
- Introducing students to the formal specifications of scientific theses and dissertations by addressing (language, paper size and margins, font size and type, paragraph formatting, line spacing, page numbering, punctuation marks, tables, figures, general controls, fixing sources, list of references).
- Enabling students to understand how to formulate the research gap from previous studies and the types of research gaps, while enabling students to know the limits of the study, the study population and the sample, and enabling students to use advanced programs to write study references.
- Contribute to graduating students with sufficient experience in the field of preparing scientific research.

9. Teaching and Learning Strategies

Strategy

- Lecture (indoctrination)
- Discussion
- Questions and answers
- Preparing reports and assignments
- Oral and written examinations

8. Course Objectives			
Course Objectives	• Interest in econometric methods.		
	• Preparing the student scientifically and practically to test		
	economic and financial hypotheses		
	• Preparing the student scientifically and practically to analyze		
	economic and financial variables quantitatively.		
	• Prepare the student scientifically and practically to solve		
economic problems and make decisions.			
• Preparing the student scientifically and practically to fore			
	trends in economic variables		
9. Teaching and Lear	ning Strategies		
Strategy			
a. Teaching and learning	1. Lecture method.		
methods	2. Method of discussion and dialogue.		
methods	3. Method of assignments and reports.		
	1. Preparing for the lecture.		
B. Evaluation methods	2. Discussion and dialogue.		
B. Evaluation methods	3. Duties assigned to the student.		
	2. Written exams		
	1. Providing students with skills in estimating the values of quantitativ		
	economic relationships.		
	2. Providing students with the skills of analyzing quantitative economic		
C. thinking skills	relations		
C. Milling Skills	3. Providing students with the skills to solve economic problems an		
	make decisions.		
	4. Providing students with skills in forecasting trends in economic		
	variables.		
D. Generic and	1. How to use econometric methods to estimate economic and financia		
transferable skills (skills relations			

related to employability and personal development)

- 2. How to use econometric methods to solve economic and financia problems
- 3. How to use econometric methods in making economic...
- 4. How to use econometric methods to predict trends in economi variables
