1. Program Vision

The Accounting Department seeks to achieve leadership by keeping pace with everything new in the field of specialization and in three main areas: accounting education, accounting scientific research, and community service and providing the community with qualified graduates who hold higher degrees (diploma, master's, doctorate) are capable of solving different accounting problems.

2. Program Mission

The department's mission of the postgraduate program is to provide a scientific environment that fulfills the requirements of the labor market and is appropriate for the future directions of the accounting and auditing profession in Iraq by actively contributing to the preparation of accountants and auditors who hold higher degrees and are qualified with the knowledge, capabilities and skills that enable them to address the accounting problems faced by both economics, local and global.

3. Program Objectives

- Improving the quality of accounting education and improving the quality of the graduate program outcomes offered by the department in the field of accounting and auditing in light of national, regional and international standards.
- Providing an educational environment that encourages students to be creative and innovative in the field of accounting in general.
- Developing the academic field of knowledge in the specialty of accounting and auditing in line with developments in the field of specialization and the requirements of the labor market.
- Improving the efficiency of the academic staff in the department to achieve scientific sobriety in postgraduate studies.
- Achieving community partnership and activating the department's interaction with state institutions and the private sector in order to provide training and employment opportunities for students on the one hand and contribute to solving the problems facing accountants and auditors in the work environment on the other hand.

- Adopting continuous improvement of educational services through developing postgraduate curricula and introducing new educational programs in postgraduate studies.

4. Program Accreditation

Does the program have program accreditation? And from which agency? No

5. Other external influences

Is there a sponsor for the program? No

8. Expected learning outcomes of the programme

Knowledge

Statement of learning outcomes 1	Learning outcomes 1
Knowledge of all program specializations at advanced level	Providing students with knowledge of all program specializations

Skills

Statement of learning outcomes2	Learning outcomes 2
Discovering problems and solving them in modern ways	The ability to discover problems and solve them in modern ways
Statement of learning outcomes3	Learning outcomes 3
The possibility of using modern techniques in accounting	Developing capabilities to use modern techniques in accounting

Value

Statement of learning outcomes4	Learning outcomes 4
Self development	Developing the required skills and self-development
Statement of learning outcomes5	Learning outcomes 5
Persistence in learning	Wishing you diligence and perseverance in learning regarding the course

9. Teaching and Learning Strategies

Teaching and learning strategies and methods adopted in the implementation of the program in general.

- Daily lectures
- Discussions during the lecture

- questions and answers
- smart board
- Power point
- Preparing reports according to the course vocabulary
- Monthly tests
- Daily tests
- End of course test

10. Evaluation methods

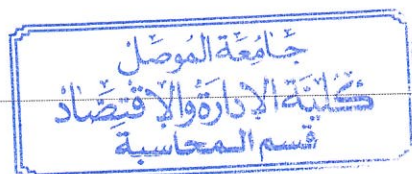

Implemented at all stages of the program in general.

Daily, monthly and quarterly tests

11. Faculty

Faculty Members
