1. Overview

This guide outlines the courses offered by the Economics program leading to a Bachelor of Science in Economics. The four-year program comprises 48 courses, totaling 6,000 credit hours and 240 ECTS credits. The courses are delivered according to the Bologna Process.

2. Undergraduate Modules 2025-2026

Module 1

Code	Module Title	ECTS	Semester
MEC-1101	Principles of Microeconomics	8	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
5	0	93	107
Description			
This course covers the fundamental concepts and principles of microeconomics, focusing on the behavior of individuals and firms in making economic decisions related to consumption, production, and pricing. It also addresses supply and demand forces, price determination, supply and demand elasticities, consumer and producer behavior, and different types of market structures, helping students understand how resources are allocated and economic decisions are made at the level of individual economic units.			

Module 2

Code	Module Title	ECTS	Semester
MEC-1102	Principles of Management	6	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
3	0	63	87
Description			
This course covers the fundamental concepts and principles of management science, aiming to introduce students to management functions, principles, and their role in achieving organizational goals. It includes the study of planning, organizing, directing, and controlling functions, as well as decision-making processes, leadership, motivation, managerial communication, and human resource management, thereby developing students' ability to understand and apply management practices in the workplace.			

Module 3

Code	Module Title	ECTS	Semester
MEC-1103	Principles of Accounting	6	1

Class (hr/w)	OLect/Lab./Prac./Tutor	SSWL (hr/sem)	USWL (hr/w)
3	0	63	87
Description			
This course covers the basic concepts and principles of accounting, and aims to introduce the student to how to record, classify and analyze the financial transactions of establishments, and prepare basic financial statements, which helps him understand accounting information and use it in making economic and administrative decisions.			

Module 4

Code	Module Title	ECTS	Semester
MEC-1104	Principles of Economic Mathematics	8	1
Class (hr /w)	OLect/Lab./Prac./Tutor	SSWL (hr/sem)	USWL (hr/w)
2	0	48	102
Description			
This course deals with the application of mathematical principles in addressing economic and financial problems, and includes topics such as percentages, simple and compound interest, equations, functions matrices, and mathematical applications related to costs, revenues, and profits, thereby enhancing the student's ability to perform quantitative analysis of economic problems.			

Module 5

Code	Module Title	ECTS	Semester
UOM-102	English language	8	1
Class (hr /w)	OLect/Lab./Prac./Tutor	SSWL (hr/sem)	USWL (hr/w)
2	0	33	17
Description			
This course aims to develop the student's basic English language skills, through developing readingwriting, listening and speaking skills, with a focus on vocabulary and terms related to the academic and economic field, enabling the student to use the language in his studies and scientific and professional communication.			

Module 6

Code	Module Title	ECTS	Semester
UOM-104	Democracy and human rights	8	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
2	0	48	102

Description
This material addresses the basic concepts and principles of democracy and human rights, focusing on individual rights and fundamental freedoms, the principles of political participation, the rule of law equality, justice, tolerance, and respect for diversity, contributing to raising awareness of rights and duties and building a culture of citizenship.

Module 7

Module 7			
Code	Module Title	ECTS	Semester
MEC-1205	Principles of Macroeconomics	8	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
5	0	93	107
Description			
This course covers the basic concepts and principles of macroeconomics, focusing on the study of general economic variables such as GDP, income, inflation, unemployment, economic growth, and monetary and fiscal policies, helping the student to understand the performance of the economy at the macro level.			

Module 8

Module 6			
Code	Module Title	ECTS	Semester
MEC-1206	Financial accounting	6	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
2	0	48	102
Description			
This course covers the foundations and principles of financial accounting, and aims to introduce the student to how to record, classify and process financial transactions, prepare basic financial statements and analyze accounting information that helps in evaluating financial performance and making decisions			

Module 9

Code	Module Title	ECTS	Semester
MEC-1207	Principles of Statistics	6	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
3	0	63	87
Description			
This course covers the basic concepts and methods in statistics, including data collection, organization classification and presentation, as well as measures of central tendency and dispersion, probability, and principles of statistical inference, which helps the student to analyze economic and administrative data.			

Module 10

Code	Module Title	ECTS	Semester
MEC-1208	English economic readings	8	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
2	0	48	77
Description			
This course aims to develop the student's ability to read and understand economic texts and articles in English, with a focus on basic economic terms and concepts, thereby enhancing their ability to benefit from foreign economic sources and studies.			

Module 11

Code	Module Title	ECTS	Semester
UOM-103	Principles of Computer Science	8	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
1	2	48	27
Description			
This material covers the basic concepts and principles of computer science and information technology including identifying computer components, operating systems, software, networks, databases, and the principles of using computer applications, which helps the student to employ the computer in study and work.			

Module 12

Code	Module Title	ECTS	Semester
UOM-101	Arabic	8	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
2	0	33	17
Description			
This course aims to develop the student's skills in the Arabic language, through the study of grammar and spelling rules, methods of expression and writing, and reading and comprehension, in order to improve his ability to use the Arabic language correctly in academic and professional fields.			

Module 13

Code	Module Title	ECTS	Semester
MEC-2309	Microeconomic theory	8	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)

4	0	78	122
Description			
This course covers the basic theories and concepts in microeconomics, focusing on the analysis of consumer and producer behavior, price determination, market equilibrium, supply and demand, and different market structures, helping the student to understand economic decisions at the individual and enterprise levels.			

Module 14

Code	Module Title	ECTS	Semester
UOM-206	English language	2	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
2	0	33	17
Description			
aims to develop the student's basic skills in the English language, through reading, writing, listening and speaking, with a focus on the vocabulary and terminology that the student needs in the academic and professional field.			

Module 15

Code	Module Title	ECTS	Semester
UOM-207	of Computer Principles Science	3	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
1	2	48	27
Description			
This material covers the basic concepts of computer science and information technology, including identifying computer components, software and operating systems, and the principles of using computer applications and networks, which helps the student to employ the computer in study and work.			

Module 16

Code	Module Title	ECTS	Semester
MEC-2310	Economics of Money and Banking	8	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
4	0	78	122
Description			
This material deals with the concepts and theories related to money and banking, and focuses on the			

functions of money, its supply and demand, the role of commercial banks and the central bank, monetary policy, and its impact on economic activity and monetary stability.

Module 17

Code	Module Title	ECTS	Semester
UOM-205	Arabic	2	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
2	0	33	17
Description			
This course aims to develop the student's skills in using the Arabic language correctly, through the study of grammar and spelling rules, and reading, writing and expression skills, in order to enhance his ability to communicate and write academically and professionally.			

Module 18

Code	Module Title	ECTS	Semester
MEC-2311	Economic Statistics Analysis	7	1
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
4	0	63	112
Description			
This course deals with the use of statistical methods in analyzing economic data and phenomena including data organization and analysis, the use of statistical measures and indicators, and the study of relationships between economic variables, which helps the student to interpret the results and support the economic decision-making process.			

Module 19

Code	Module Title	ECTS	Semester
MEC-2412	partial economic policies	7	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
4	0	78	97
Description			
This material deals with economic policies and measures at the level of individual economic units, and focuses on addressing issues of prices, production, consumption, competition and markets, and studying the role of government policies in achieving economic efficiency and protecting the consumer and the producer.			

Module 20

Code	Module Title	ECTS	Semester
------	--------------	------	----------

MEC-2413	National accounts	5	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
3	0	63	62
Description			
This material covers the basic concepts and methods for measuring a country's economic activity including the study of gross domestic product, national income, consumption, investment savings, public spending, and the relationships between different economic sectors, which helps to assess the performance of the economy.			

Module 21

Code	Module Title	ECTS	Semester
EC1104	History of Economic Thought and Systems	6	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
4	0	63	87
Description			
This material deals with the development of events and economic systems throughout the ages, and focuses on studying the most important economic, intellectual and historical transformations that contributed to shaping different economic systems, such as the feudal, capitalist and socialist systems and their impact on the development of societies and economies.			

Module 22

Code	Module Title	ECTS	Semester
MEC-2415	Human resource economics	4	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)
4	0	63	37
Description			
This material deals with the study of human resources as one of the basic elements of production, and focuses on issues of work, wages, employment, unemployment, investment in human capital, education and training, productivity, and its role in achieving economic growth and development.			

Module 23

Code	Module Title	ECTS	Semester
MEC-2416	Quantitative methods and applications	6	2
Class (hr /w)	OLect /Lab./ Prac ./ Tutor	SSWL (hr / sem)	USWL (hr /w)

2	2	63	87
Description			
This course deals with the use of mathematical and statistical methods in analyzing economic and administrative problems, with an emphasis on the application of statistical software, particularly SPSS , in data entry, organization, analysis, hypothesis testing, and interpretation of results to support research and decision-making.			

Module 24

Code	Module Title	ECTS	Semester
UOM-208	Ba'ath Party crimes in Iraq	2	2
Class (hr /w)	OLect/Lab./Prac./Tutor	SSWL (hr/sem)	USWL (hr/w)
2	0	33	17
Description			
This material examines the violations and crimes committed by the Baath Party regime in Iraq by identifying the most prominent events and practices that Iraq witnessed during the regime's rule, and their political, economic, social and humanitarian effects, with a focus on documenting events and promoting awareness of national history and human rights.
