

Course Description Form

1. Course Name:
Biochemistry
2. Course Code:
BIC204
3. Semester / Year:
The second semester / 2 Stage /2023-2024
4. Description Preparation Date:
1/2/2024
5. Available Attendance Forms:
Attendance
6. Number of Credit Hours (Total) / Number of Units (Total)
Theoretically 2/3 practical (5 hours) / 3.5 unit
7. Course administrator's name (mention all, if more than one name)
Name: Dr. Yuosra Amer Ali Email: yuosra_amer@uomosul.edu.iq Afkar Yahya Ahmed
8. Course Objectives
<p>Theoretical:</p> <p>Enabling the student to understand and comprehend what is related to food compounds and their importance.</p> <p>Providing students with knowledge, teaching modern principles and methods in studying biochemical sciences, and using modern technologies in practical study in laboratories.</p> <p>Practical:</p> <p>Enabling the student to become familiar with the principles and modern methods of studying biochemical sciences as well as studying</p> <p>Synthesis of proteins, carbohydrates, and fats and the tests performed on them.</p>
9. Teaching and Learning Strategies
<p>Interactive lecture.</p> <ul style="list-style-type: none"> -Brainstorming. -Dialogue and discussion. -Assigning tasks and reporting. <p>The student is assigned to prepare a report entitled from his own diligence and prepares it for discussion with the students.</p> <ul style="list-style-type: none"> - Assigning group work to reveal leadership skills. -Assigning group work to reveal leadership skills. - Assigning tasks and reporting for each experiment.

10. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2 theoretical	B1: Explains the concept of cell science and its components (general properties of the cell)	The cell and its components.	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions Short exams, assignments, discussions
	3 practical	B1: Safety in Laboratories	applies rules And safety specifications in laboratories.	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions Short exams, assignments, discussions
2	2 theoretical	C1: Explains the nature of water, solutions, and pH the body.	Water and pH	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	A1: Carbohydrate And its types.	Classified Carbohydrates of all kinds.	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
3	2 theoretical	B2: He is familiar with the nature of carbohydrates and their biological and physiological functions.	Carbohydrates	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions

	3 practical	B2:the exams General carbohydrates	Solubility test And the Mulch te	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments , discussions
4	2theoretical	A2:Identify derived monosaccharides and oligosaccharides.	Classification of carbohydrates	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments , discussions
	3 practical	A2:Tests Carbohydrates	the exams Carbohydrate reductionism	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments , discussions
5	2theoretical	C2:Explains the structure, function and classification fats.	Fats	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments , discussions
	3 practical	B3:the exams Descriptive For carbohydrates	Hydrolysis of sucrose And iodine test And hydrolysis of starch With mineral acids	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments , discussions
6	2theoretical	A2:Recognizes complex (conjugated) lipids	Complex fats	Auditory methods, writing	Short exams, assignments

				method on the board, direct dialogue method	, discussions
	3 practical	B4:Fats	Special tests With fat	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
7	2 theoretical	B3:The most important fats are derived fatty acid (saturated and unsaturated)	Derived fats	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	B5:Tests To detect Clycerol	Acrolein test To detect cholesterol	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
8	2 theoretical	A3:Recognizes the general properties of amino acids and the division of amino acids.	amino acids	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	A3:Structured solutions	Ph	Auditory methods, writing method on the board, direct, dialogue method	Short exams, assignments, discussion

9	2 theoretical	A4: Understands peptides and peptide bonds in proteins.	Peptides	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	A4: amino acids	General tests And the description of acids Amino	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
10	2 theoretical	A5: Understands proteins and the biological and physiological functions of proteins.	Learn about the process of Biological functions of proteins	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	A4: amino acids	Detection of acids Amino containing Sulfur	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
11	2 theoretical	A6: Identifies plasma proteins	Plasma proteins	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	B6: amino acids	Mellon test And xanthoprotic	Auditory methods, writing	Short exams, assignments

			test	method on the board, direct dialogue method	, discussions
12	2theoretical	A7:Understands enzymes and their properties.	Enzymes	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	A6:Proteins	the exams Description of proteins	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
13	2theoretical	C3:Explains vitamins and their classification.	Vitamins	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	C1:Proteins	Biuret test	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
14	2theoretical	C4:Explains mineral elements and their classification.	Metal elements	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions

	3 practical	A7:Proteins	Precipitation of proteins With heavy meta salts	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
15	2theoretical	A8:Describes the body's metabolisr	Metabolism	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions
	3 practical	A8:Solve the problem	A scientific visit someone Biochemistry laboratories	Auditory methods, writing method on the board, direct dialogue method	Short exams, assignments, discussions

11. Course Evaluation

No.	Evaluation methods	Evaluation date (week)	Grade	Relative weight%
1	Final theoretical report,	week 15	7 theoretical 6 practical	13%
2	Short test (1) Quiz	a week (3)	4 theoretical 2 practical	6%
3	Midterm Exam	week (9)	10 theoretical 5 practical	15%
4	Short test (2) Quiz	week (12)	4theoretical 2 practical	6%
5	Final practical exam	practical exams week	20	20%
6	Final theoretical exam	theoretical exams week	40	40%
	The Total		100	100%

12. Learning and Teaching Resources	
Required textbooks (curricular books, if any)	Fo Dalali, Basil Kamel, 1994, Basics of Biochemistry, Dar Al-Kutub for .Printing and Publishing, Mosul, Iraq
Main references (sources)	Dalali, Basil Kamel, 1994, Basics of Biochemistry, Dar Al-Kutub for Printing and Publishing, Mosul, Iraq.
Recommended books and references (scientific journals, reports...)	<ul style="list-style-type: none"> - Voet, D. Voet J.G . Biochemistry. - Nelson, D. L., Lehninger Principles of Biochemistry. - Robyt. J.F., White, B. J . Biochemical Techniques (Theory and Practice).
Electronic References, Websites	World Health Organization, Food and Drug Administration.

Instructor of theoritical part

Dr. Yuosra Amer Ali

Instructor of practical part

Afkar Yahya Ahmed

Chairman of the scientific committee

Prof. Dr. Moafak mahmood ahmed

الأستاذ الدكتور
سيتا خلف بلادي
قسم علوم الأغذية

Head of the department of Food science

Prof. Dr. Sumiya kalaf badawi
