**Course Description Form** 

1	Course	e Name:
1.	Cours	e Name.

Forest planning

2. Course Code:

FOLA497

3. Semester / Year:

forth Semester / 2024-2025

4. Description Preparation Date:

1/9/2024

5. Available Attendance Forms:

Built-in

6. Number of Credit Hours (Total) / Number of Units (Total)

2 Theory + 3 practical / 3.5 units

# 7. Course administrator's name (mention all, if more than one name)

Name: Dr. Mohammad Asim Saeed

Email: modammad\_asim@uomosul.edu.iq

Name: Faiza Ali Rasheed

Email: faiza ali@uomosul.edu.iq

## 8. Course Objectives

## Theory:

The student should be able to determine the economic and environmental importance of forests and afforestation

- It aims to ensure the sustainability and continuity of forests to benefit from them economically and environmentally
- Familiarity with the most important, best and best methods of trees
- Introducing the student to some of the problems of planting seedlings according to different locations

And how to treat it

- Methods of reforestation of cut and burned forests

#### Practical:

The practical afforestation course aims to inform students and see the types of forest trees used reforestation of arid areas and stabilization of sand dunes, how to make windbreaks, and the practical application of afforestation operations in open areas and reforestation of forest areas, a to train students on developmental and sustaining processes for the trees growing in the nursery

# 9. Teaching and Learning Strategies

### Strategy

- -Interactive lecture, Brainstorming,
- Dialogue and discussion,
- Assigning tasks and reporting
- Assigning group work to reveal leadership skills

## 10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2Theory	Theory:	Theory:	Theory:	Exams,
