of agricultural machinery and equipment, while promoting scientific research and industrial partnerships. The mission is to graduate professionals equipped with technical and managerial skills that meet the challenges of modern agriculture and contribute to sustainable development and community service, all while upholding human, ethical, and professional values.

Program Objectives

- 1. Technical Development:**
To enhance students' skills in designing, operating, and maintaining agricultural machinery using the latest smart agricultural technologies.
- 2. Promoting Sustainability:**
To integrate concepts of sustainable agriculture and energy efficiency into the academic curriculum.
- 3. Labor Market Adaptability:**
To prepare graduates capable of working efficiently in multidisciplinary environments involving agricultural engineering and technology.
- 4. Innovation and Scientific Research:**
To encourage applied research in areas such as agricultural process automation and renewable energy.
- 5. International Collaboration:**
To support student and academic exchange with European and global universities through joint exchange agreements aimed at developing cognitive and

| | 1.What is the vision of the program? 2. What is the primary goal of the program? 3. How does the program enhance student skills? 4. What is the importance of professional ethics in the program? 5. How does the program address environmental challenges? | Question 1/5 | خمسة اسئلة عن البرنامج |
| | 1. The program's vision is to develop innovative agricultural education aligned with global standards, aimed at preparing qualified professionals to lead technological transformation and sustainability in the field of agricultural machinery and equipment. 2. The program aims to contribute to sustainable development by training specialized agricultural engineers who can work in the agricultural machines and equipment sector. 3. The program provides a modern educational environment equipped with the latest technologies, encouraging students to innovate, engage in self-learning, and develop practical skills. 4. The program emphasizes the significance of ethical practices and quality management in the agricultural sector to ensure students' professionalism in their future roles. | Answer 5/1 | خمسة اجوبة عن البرنامج |

| | | |
|---|---|--|
| 5. The program focuses on the optimal use of agricultural machines and equipment while preserving natural resources, contributing to a clean and sustainable environment. | | |
