Media Economy

there Association strong between Media and the economy exceed Concept - A For information Economic - to degree big, To include Media In its meaning year, Lost become Economy Part from industry Media, and the media part from industry Economy, And he is interconnectedness impose it data The era Hadith And his . achievements

The media that It means On the side Specialized with regards For the economy out from corridors Institutions academy By action what I imposed it tremors Economic that I witnessed it the world today, Which to push Media to harness all His energies To follow that tremors gesticulate Followed by from tremors Economic As it is partner into bear Its results Negativity And positivity, As it is considered Axis Basic For your attention all Sectors that Deals With her Media beginning from citizen ordinary Influencer on sized distribution And the end In companies The , Great Most impact in size Advertisement, any distribution And the . advertisement source Financing President For the institution Media

Contributions Media in Economy

did not It is considered Media confined With
devices Media traditional, So it became a
company or institution Productive Its platforms Media Private With
it, whether from during Its locations Electronic or Depending on on Its
titles in Sites communications social All Its forms, He became
arrogant that entire on Shape traditional from Newspapers and
magazines Paper And even Channel satellite, Which forced all This is
amazing means on Track Technologies and use it until remain in The
market Media, No graduation From him Submissive For its
... obsolescence Technical

become Media tool Active in production awareness And move it, And
published Culture Economic in the society As a definition By laws and
legislation and procedures organizational And its
effects, Statement Goals plans Strategy The subject, So He
: is Contributes in

Awareness The audience Importantly Savings and -
mechanisms Direct it about investment, And his
guidance to sources Resources renewable, It motivates him To
limit from consumption not essential Preservation On it, And
promotes For the nature of Alternatives possible, For
. use optimum she has

. Feeling occurrence crises Economic Global -

to support Projects and industries Useful By promoting she has In -
style professional, The audience did not It is
considered naive or away About what gets in Markets Global and
local on end Whether . So
who? receives Information Related Withdrawal Companies Global For
hundreds thousands from Its

products from Market shame basic relatively, won't Accepts With defects products He wants it whether She was Local or not Local, because banner It will be documented to Evidence It is difficult Overlooking About her Which Helpson create competition Its basis Information Correct, including achieves in the end benefit For . everyone

relationship Media By economy
