

Research published in 2018						
type of the journal	Name of published research	Name of the journal in which the research was published	Publication date	Names of participating researchers	Name of the first researcher	N
Conference paper (Scopus)	An Investigation of Pixel-Based and Object-Based Image Classification in Remote Sensing	International Conference on Advanced Science and Engineering (ICOASE)	2018	Edward Keedwell & Dragan Savic	Mohammed Chachan Younis	1
Conference paper	Evaluating Image Classification Techniques for Improved Urban Wastewater System Model Calibration	EGU General Assembly 2018	2018	Edward Keedwell & Dragan Savic	Mohammed Chachan Younis	2
Global	Modification of the Zong-Sun skeletonization algorithm for the problem of handwritten character recognition	Modeling, optimization and information technology	2018		Hassan M.N.Mohammed Zaki	3
Global	Comparison of line thinning algorithms	Informatics: problems, methodology, technologies	2018	Nikalawi Arkadvig	Hassan M.N.Mohammed Zaki	4
Global	Features for comparing skeletal graphs	Informatics: problems, methodology, technologies	2018	Nikalawi Arkadvig	Hassan M.N.Mohammed Zaki	5
Global	On the modification of skeletonization algorithms for the task of recognizing handwritten characters	Informatics: problems, methodology, technologies	2018		Hassan M.N.Mohammed Zaki	6
Global	Handwritten character recognition	ИНФОРМАЦИЯ О ПУБЛИКАЦИИ Информационно-аналитическая система SCIENCE INDEX eLIBRARY ID: 39297570	2018	Nikalawi Arkadvig	Hassan M.N.Mohammed Zaki	7

Global	About the wave algorithm for constructing an image graph for recognizing handwritten characters	Monitoring. Science and technology	2018		Hassan M.N.Mohammed Zaki	8
