

**College of Education for Pure Sciences- Department of Biology**  
**Postgraduate students 2024-2025**

<b>No.</b>	<b>Student Name</b>	<b>Degree</b>	<b>Title of thesis or dissertation</b>	<b>Supervisor name</b>
<b>1</b>	<b>Munir Salim Salih</b>	<b>MSc.</b>	<b>The effect of the search for the other half strategy on the acquisition of biological concepts among second-grade middle school students and the development of their reflective thinking</b>	<b>Asssit. Prof. Dr. Amal Ftah Zedan , Prof. Dr. Qutaiba Shaeb Mohammed</b>
<b>2</b>	<b>Tahseen Yaseen Hasan</b>	<b>MSc.</b>	<b>The effect of the interaction between the brainstorming strategy and Kolb's learning methods on the achievement of fifth-grade students in science and the development of their scientific and ethical awareness</b>	<b>Asssit. Prof. Dr. Amal Ftah Zedan , Prof. Dr. Jamella Haza Rasheed</b>
<b>3</b>	<b>Amina Hussein Abdulla</b>	<b>MSc.</b>	<b>The therapeutic effect of grape seed oil against the histological and physiological effects of some antibiotics in the tissues of some organs of albino rats</b>	<b>Assist . prof. Dr. Snabel Abddel-Monem Abdel-Majeed</b>
<b>4</b>	<b>Shaimaa Yaseen Taha</b>	<b>MSc.</b>	<b>Molecular Diagnosis and Whole genome analysis of Curtobacterium flaccumfaciens Bacteria Associated with Bacterial Wilt Disease in from Olea europeae</b>	<b>Assist.Prof Dr. Ghazwan Qasim Hasan</b>
<b>5</b>	<b>Amina Sami Ahmed</b>	<b>MSc.</b>	<b>A Phenotypic, Molecular and Anti-microbial study of The Bacterial Species Causing Otitis Media in The City of Mosul</b>	<b>Assist. Prof. Dr. Jasim Fathi Ali</b>
<b>6</b>	<b>Safaa Younis Mallah</b>	<b>MSc.</b>	<b>Physiological response of wheat plant to the effect of extracts of algae Compsopogon caeruleus and Pithophora roettleri and hydrogel</b>	<b>Assist. Prof .Dr. Mira Ausama Ahmed</b>

No.	Student Name	Degree	Title of thesis or dissertation	Supervisor name
7	Sura Salim Mahmood	MSc	The histological,immunohistochemical,and biochemical effect of gabapentin medication on some selected organs in albino rats	Ass.Prof.Baidaa Abdulaziz Mohamed Salah
8	Asmaa Abdul Wahab Jaafar	MSc	Study of some physiological and histological effects on fish Alburnus mossulensis exposed to chromium	Assist.Prof. Dr. Amal Abdulilah Younis AL-kshab
9	Yassir Salih Mahmood	MSc	<b>The effect of a mixture of soybean residues and hydrogel on the growth and germination of yellow corn (Zea mays) seeds treated with ascorbic acid</b>	<b>Prof. Dr. Mohammed Saeed Faisal</b>
10	Zainab Zuheir Jargess	MSc	Histopathological Changes In Some Organs of Coturnix coturnix japonica Exposed to Cobalt Chloride	Assist.Prof. Dr. Amal Abdulilah Younis AL-kshab
11	Atyaf Amer Mohammed	MSc	<b>Environmental effects of glyphosate and alpha-cypermethrin on soil and pea and oat plants</b>	<b>Prof. Dr. Husein Saber Mohammed Ali</b>
12	Esraa Waadallah Hussein	MSc	Biochemical and molecular identification of local rhizobia isolates	Assist. Prof. Dr. Raad Hassani Sultan
13	Zainab Baqr Abbas	MSc	Molecular screening for nitrofurantoin resistance genes in Escherichia coli isolates from urinary tract infections	Assist Prof Dr. Hasan Faisal Hussein
14	Sarah Musbah Mohammed	MSc	Isolation and biochemical and molecular characterization of local rhizobia isolates	Assist Prof Dr. Hasan Faisal Hussein
15	Waad Mahmood Jasim	Ph.D	Changes in the expression of heat shock genes HSP70 and HSP90, cold shock genes CBF4 and COR47, and chemical ZnO NP in the callus of Fragaria ananassa Duch	Prof. Dr. Jamella Hazah Rasheed

<b>No.</b>	<b>Student Name</b>	<b>Degree</b>	<b>Title of thesis or dissertation</b>	<b>Supervisor name</b>
16	Salim Younis Ahmed	MSc.	A study of phenotypic and genetic variation between the red flour beetle <i>Tribolium castaneum</i> and the similar <i>Tribolium confusum</i> in Mosul city	Assit. Prof. Dr. Ibraheem Khaleel Ibraheem
17	Duaa Samir Ahmed	MSc.	Molecular diagnosis of <i>Echinococcus granulosus</i> and evaluation of albendazole and mebendazole-loaded polymeric nanoparticles efficacy against larval stages of the parasite in vitro and in vivo	Assist. Prof. Dr. Ibrahem Faris Ali
18	Farah Sobhi Salih	Ph.D	The effect of the biotic antagonism of fenugreek grown in soils treated with hydrogel and potassium and exposed to drought on the growth of soybean plants	Prof. Dr. Mohammed Saeed Faisal
19	Roaa Abdella Mohammed	MSc.	The effect of Cornell's strategy on the achievement of fourth-grade science students in biology and the development of their central thinking	Asssit. Prof. Dr. Waad Ghanem Bdawei, Assist. Prof. Dr. Jasim Fathi Ali
20	abd -Khdeer saad gdeer	MSc.	Isolation and identification of iaa produced by <i>A. tumefaciens</i> bacteria isolated from some quince tumors and evaluation of its efficiency in tomato plant growth	Assist . Prof. Dr. Raghad Nawaf Jerjees
