Planning for personal development

The Art Education Department has focused on continuous improvement and the trend towards quality in education and educational outcomes. The department always seeks to improve the scientific and administrative process and overcome all the difficulties and obstacles that hinder educational programs by developing and developing cadres.

The following procedures explain the steps implemented or in the process of implementation in this area:

- Continuous improvement and development of faculty members through training programs and workshops inside and outside the department and college.
- Increasing extracurricular activities such as holding conferences, seminars, scientific lectures, and personal and joint art exhibitions.
- Encouraging faculty members to obtain the highest academic ranks.
- Providing modern scientific sources and books for the college library to keep pace with the rapid progress in science and related fields.
- Providing the necessary office and electronic supplies, along with Internet lines, for all teachers.

Admission criterion (establishing regulations related to college admission)

The Department of Art Education is subject to the admission mechanism for government colleges under the supervision of the Ministry of Higher Education and Scientific Research, as two categories of applicants apply to the department:

1- Direct application students are graduates of (fine arts institutes, preparatory studies in their branches (biological, applied, literary, agricultural vocational preparatory schools, trade and industry, applied arts preparatory school, tourism and hotel institutes, as well as the gifted channel.

2- Central application students (preparatory)
