

Tasks of the Psychological Counseling and Educational Guidance Division

- Planning and coordinating psychological and social activities and events at the college level in cooperation with relevant entities.
- Preparing the annual plan for psychological counseling and educational guidance and monitoring its implementation and goal achievement.
- Appointing psychological and educational guides for each study level and organizing meetings to discuss and solve student problems.
- Establishing a website or clinic within the college to provide psychological support to students and staff.
- Assisting new students in adapting to the university environment by introducing them to the unit's services and meeting their needs.
- Monitoring academic performance and recurring absences of students, and addressing cases of academic stumbling in coordination with relevant departments.
- Organizing awareness seminars and lectures aimed at prevention, development, and addressing student issues.
- Maintaining the confidentiality of personal information for students and promoting the freedom to choose an educational guide.
