

The Third Annual Festival of Sustainable Development

University of Mosul
Sustainable Development Festival
21-24, April 2025

Project Name: Production of Natural Skincare and Hair Care Formulations

Highlights:

- The project was executed through individual effort by producing a variety of skincare products using plant-based oils and natural herbs, with a focus on eco-friendly techniques such as the cold process method. Additionally, the project involved recycling cooking oils after treating them with medicinal plants, contributing to the circular economy.

College: Pharmacy

Sustainability Goals(17-1):

Goal 3: Good Health and Well-being

Goal 12: Industry, Innovation and Infrastructure

Funding Information: This project was part of the 3rd annual Festival of Sustainable Development (SDF) (project No. 2/3) supported by the University of Mosul (UOM).
