

September 18, 2024

A seminar held by the College of Political Science at the University of Mosul reviewed the importance of international cooperation in addressing the challenges of security, climate change, technology, and leading change toward a more just and sustainable global order.

The seminar held by the College of Political Science at the University of Mosul discussed the proposed mechanisms for strengthening a multilateral system that reflects today's realities and ensures broader representation of states, on Wednesday, September 18, 2024.

The seminar aimed to offer solutions to ensure international peace and security, while exploring ways to promote sustainable development and support youth to ensure their effective participation in global decision-making.

The scientific session was chaired by Professor Dr. Hazim Hamad Mousa and coordinated by Assistant Lecturer Nawar Basel Mahfouz.

Three research papers were presented during the seminar, delivered

respectively by Lecturer Dr. Ali Bashar Abkar, Lecturer Dr. Khairallah Subhan Al-Jubouri, and Lecturer Dr. Muhannad Hameed Abbas. Afterwards, the floor was opened for questions and interventions from the attendees.

The seminar was attended and supervised by the Dean of the College, Assistant Professor Dr. Tareq Mohammed Tayeb Thahir, who praised the topics addressed, considering them highly relevant to the current political reality on both regional and international levels. The Dean also pointed to the possibility of developing this seminar into a scientific conference under the auspices of the esteemed Ministry, noting that the presented papers could be further explored through master's theses or doctoral dissertations in service of society and the public interest.

Also in attendance were the Administrative Assistant and a group of faculty members and staff.

The Women's Affairs Unit at the College of Political Science, University of Mosul, Holds a Scientific Workshop on the Importance of Tree Planting in Achieving Environmental Balance

October 2024

The Women's Affairs Unit at the College of Political Science, University of Mosul, held a scientific workshop on the importance of tree planting in achieving environmental balance, on Sunday, October 27, 2024.

The workshop included two lectures that addressed the significance of afforestation and the role of trees in protecting the environment, delivered respectively by Lecturer Dr. Afraa Riyadh Mohammed and Assistant Lecturer Aseel Ghanem Abd.

On the sidelines of the workshop, several trees and plants were planted in the college garden, in conjunction with the ongoing National Afforestation Campaign.

The workshop was attended by Nineveh Provincial Council Member, Assistant Lecturer Sumayya Ghanem Al-Khabouri, the Scientific Assistant, Lecturer Dr.

Khairallah Subhan Al-Jubouri, along with a number of the college's faculty members and staff.
