1. Program Vision

Working diligently in an effort to consolidate the principles of human rights and basic freedoms among students of the Faculty of Law in preliminary and postgraduate studies in various fields of legal sciences, especially in the field of academic legal studies specialized in the field of human rights law, and striving to improve the capabilities of the faculty members in the branch, while striving to achieve development goals. Sustainable from a solid legal standpoint.

2. Program Mission

. The solid academic construction of students in an effort to graduate a generation of human rights professionals that contributes to providing the various state institutions with a specialized elite of those holding advanced degrees in human rights law so that they can undertake the burden of developing the scientific and practical aspects of human rights in order to spread its principles and culture throughout society.

3. Program Objectives

1. Raising the academic and practical level of students by enhancing the quality of curricula and achieving the highest level of curriculum skills.
2. Striving diligently to fully implement the requirements of the academic program to achieve program accreditation.
3. Developing the skills of legal analysis and reasoning among law students, enabling them to address complex legal issues.
4. Sustained cooperation with the college's academic branches to ensure the successful implementation of each branch's academic program.
5. Keeping pace with scientific and technical developments in fields

related to the branch's academic specializations.

6. Strengthening the curricula and academic courses for undergraduate and graduate studies in the field of Human Rights Law by reviewing the educational curricula of elite international and Arab law schools.

7. Promoting the values of justice, integrity, and legal responsibility among students and graduates.

4. Program Accreditation

Programmatic Accreditation for Law Schools in Iraq... (Application for accreditation has been accepted)

5. Other external influences

1– Procedures are underway to implement international programming standards.

2– Communication and constructive cooperation with the labor market (professionals), through the establishment of the Advisory and Industrial Council for the College of Law, whose membership includes various relevant labor market entities:

- * A representative from the Nineveh Chamber of Commerce
- * A representative from the Bar Association
- * A representative from the Chamber of Commerce
- * A representative from the Mosul Municipality
- * A representative from the Investment Chamber

8. Expected learning outcomes of the program
Knowledge
The necessary knowledge to practice law is achieved by demonstrating knowledge of legal sciences and keeping abreast of developments therein, enabling them to work and pursue their future careers in any legal specialization. This knowledge is effectively applied to ensure the achievement of justice.

Graduates will be able to:

- ☐ Possess legal knowledge and apply it in various specific legal specializations.
- ☐ Possess knowledge and apply it to establishing the foundations of justice.
- ☐ Possess the ability to understand and identify the relationship between legal science and other sciences.
- ☐ Possess knowledge and apply it to serve society by upholding the law and achieving justice.
- ☐ Acquire, evaluate, apply, and integrate theoretical knowledge with practical practice, and become familiar with all the latest developments in the legislative field at the local and international levels.

Skills & Ethics

	General	Special			Staff	Lecturer
Mr. Assistant Professor Teacher assistant teacher	Public Law	Public international law			5	
	Public Law	Public international law			8	
	Public Law	Public international law			2	
Mr. Assistant Professor Teacher assistant teacher	Public Law	The Constitutional law			2	
	Public Law	The Constitutional law			3	
	Public Law	International human rights law			5	
Mr. Teacher Teacher	Public Law	Political systems			1	
	Public Law	Criminal Law			1	

	private law	Commercial Law			1	

Professional Development

Mentoring new faculty members

- ☐ Teaching methods courses
- ☐ Teaching validity tests
- ☐ The scientific branches of the college hold development courses for new teachers on the scientific subject and methods of lecture management (in which teachers with experience and academic titles lecture)
- ☐ The college's continuing education unit established development courses for new teachers

Professional development of faculty members

- ☐ Developing a strategy for developing the academic staff in the college, which includes the college's policy for developing its teaching staff

12. Acceptance Criterion

- ☐ Requirements issued by the Ministry of Higher Education and Scientific Research.
- ☐ Reliance on the ministerial program and electronic admission for graduates of middle school and for both the literary and scientific streams. Admission is centralized for graduates of the sixth grade of science (based on achieving a specific score on the ministerial exam), determined by the Ministry of Higher Education and Scientific Research.
- ☐ Contribute to and promote the "Study in Iraq" program by advertising the program internationally, introducing it, and highlighting its advantages as a means of attracting the interest of international students to study at our college.

13. The most important sources of information about the program

- Requirements issued by the Ministry of Higher Education and Scientific Research.
- Reliance on the ministerial program and electronic admission for graduates of middle school and for both the literary and scientific streams. Admission is centralized for graduates of the sixth grade of science (based on achieving a specific score on the ministerial exam), determined by the Ministry of Higher Education and Scientific Research.
- Contribute to and promote the "Study in Iraq" program by advertising the program internationally, introducing it, and highlighting its advantages as a means of attracting the interest of international students to study at our college.

14. Program Development Plan

- Improving the quality of educational curricula through periodic evaluation by the relevant committees (Measurement, Evaluation, and Program Follow-up Committees).
- Approving improvement plans based on the work outcomes of the Measurement, Evaluation, and Program Follow-up Committees.
- Approving the annual report submitted for program evaluation and approved by the College Council (the report was prepared based on the opinions of students and the labor market professionals) to ensure it meets their desires and needs.
- Strive to achieve consistency between the requirements of modernity in application and meeting the needs of students and society.
- Maximizing the use of program evaluation results in making corrective decisions to develop curricula and educational programs.
