Approval of the Dean

Assistant Professor Dr
Wissam Nemat Al-Saadi

1. Program Vision

Preparing graduates who have met all program accreditation requirements, with a high level of academic and practical legal competence, possessing a high-level legal proficiency, able to compete at the local, national, and international levels, and qualified to provide fair solutions to legal problems. They are also capable of developing legal thought, which contributes to fostering a spirit of excellence, creativity, and innovation, while striving to enhance the role of law in achieving sustainable development goals..

2. Program Mission

. The solid scientific building of students in order to graduate an educated generation that believes in its scientific message in the field of law, and to provide state institutions, departments and the private sector with legal cadres and competencies with precise specializations.

3. Program Objectives

- 1. Raising the academic and practical level of students by enhancing the quality of curricula and achieving the highest level of curriculum skills.**
- 2. Striving diligently to fully implement the requirements of the academic program to achieve program accreditation.**
- 3. Developing the skills of legal analysis and reasoning among law students, enabling them to address complex legal issues.**
- 4. Sustained cooperation with the college's academic branches to ensure the successful implementation of each branch's academic program.**
- 5. Keeping pace with scientific and technical developments in fields related to the branch's academic specializations.**
- 6. Strengthening the curricula and academic courses for**

undergraduate and graduate studies in the field of private law by reviewing the educational curricula of elite international and Arab law schools.

7. Promoting the values of justice, integrity, and legal responsibility among students and graduates.

4. Program Accreditation

Programmatic Accreditation for Law Schools in Iraq... (Application for accreditation has been accepted)

5. Other external influences

1– Procedures are underway to implement international programming standards.

2– Communication and constructive cooperation with the labor market (professionals), through the establishment of the Advisory and Industrial Council for the College of Law, whose membership includes various relevant labor market entities:

- * A representative from the Nineveh Chamber of Commerce
- * A representative from the Bar Association
- * A representative from the Chamber of Commerce
- * A representative from the Mosul Municipality
- * A representative from the Investment Chamber

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
College Requirements	39	75	56.58%	
Department Requirements	14	25	37%	

Summer Training	There is

8. Expected learning outcomes of the program

Knowledge

The necessary knowledge to practice law is achieved by demonstrating knowledge of legal sciences and keeping abreast of developments therein, enabling them to work and pursue their future careers in any legal specialization. This knowledge is effectively applied to ensure the achievement of justice. Graduates will be able to:

- ☐ Possess legal knowledge and apply it in various specific legal specializations.
- ☐ Possess knowledge and apply it to establishing the foundations of justice.
- ☐ Possess the ability to understand and identify the relationship between legal science and other sciences.
- ☐ Possess knowledge and apply it to serve society by upholding the law and achieving justice.
- ☐ Acquire, evaluate, apply, and integrate theoretical knowledge with practical practice, and become familiar with all the latest developments in the legislative field at the local and international levels.

Skills & Ethics

- ☐ Identify and overcome potential barriers to law enforcement
- ☐ Distinguish situations that require a wise opinion to reach the truth and respect the other opinion
- ☐ Accurate documentation of the legal work process
- ☐ Providing legal advice in an accurate and timely manner
- ☐ Show empathy, integrity, and respect for others regardless of differences by standing at the same distance from everyone

- ☐ Demonstrate commitment to ethical principles while practicing the legal profession
- ☐ Demonstrate teamwork and effective leadership skills
- ☐ Identify their learning needs and demonstrate a commitment to lifelong learning
- ☐ Demonstrate knowledge of the principles of the legal framework in which the legal profession is practiced, within what is required by a fair judiciary

9. Directing new faculty members to improve the quality of scientific and academic performance, through the following:

Teaching Methods Courses

- ☐ Teaching Competency Tests
- ☐ Introducing the college's vision, mission, and goals, and informing them of the college's policies, academic regulations and instructions, and the Code of Ethical and Professional Conduct (which must be followed, adhered to, and reviewed).
- ☐ Clear and announced specialized guidance on the academic and professional requirements relevant to their specific specializations.
- ☐ Holding development courses for new faculty members (in the fields of academic work (on scientific material and lecture management methods), research, and administrative work) through the college's Continuing Education Unit and in cooperation with the scientific departments (lectured by experienced faculty members with academic titles), to equip new faculty members with the skills and tools necessary for outstanding and effective performance.
- ☐ Providing legal and technical advisory support to new faculty members.
- ☐ Measuring performance levels through annual evaluations, which will identify areas of weakness (to address them through performance improvement) and areas of strength (to enhance and advance them).

10. Evaluation methods

The professional development plan for faculty members includes the following:

- Developing a strategy for developing the college's academic staff, including the college's policy for developing its teaching staff.
- Implementing a professional development plan to enhance faculty performance through the implementation of the teaching and learning strategy.
- Conducting training courses for faculty members aimed at developing modern teaching skills and utilizing modern educational technologies.

Professional Development

Mentoring new faculty members

- Requirements issued by the Ministry of Higher Education and Scientific Research.
- Reliance on the ministerial program and electronic admission for graduates of middle school and for both the literary and scientific streams. Admission is centralized for graduates of the sixth grade of science (based on achieving a specific score on the ministerial exam), determined by the Ministry of Higher Education and Scientific Research.
- Contribute to and promote the "Study in Iraq" program by advertising the program internationally, introducing it, and highlighting its advantages as a means of attracting the interest of international students to study at our college

Professional development of faculty members

- The professional development plan for faculty members includes the following:
- Developing a strategy for developing the college's academic staff, including the college's policy for developing its teaching staff.
 - Implementing a professional development plan to enhance faculty performance through the implementation of the teaching and learning strategy.
 - Conducting training courses for faculty members aimed at developing modern teaching skills and utilizing modern educational technologies.

12. Acceptance Criterion

- Requirements issued by the Ministry of Higher Education and Scientific Research.
- Reliance on the ministerial program and electronic admission for graduates of middle school and for both the literary and scientific streams. Admission is centralized for graduates of the sixth grade of science (based on achieving a specific score on the ministerial exam), determined by the Ministry of Higher Education and Scientific Research.
- Contribute to and promote the "Study in Iraq" program by advertising the

program internationally, introducing it, and highlighting its advantages as a means of attracting the interest of international students to study at our college.

13. The most important sources of information about the program

- * Solid studies related to the College of Law curricula, approved by the committee.
- * National Program Accreditation Standards Guide for Law Schools in Iraq.
- * Strategy for the College of Law, University of Mosul.
- * A set of introductory guides issued by the College's Quality Assurance and Performance Evaluation Division.

14. Program Development Plan

- Improving the quality of educational curricula through periodic evaluation by the relevant committees (Measurement, Evaluation, and Program Follow-up Committees).
- Approving improvement plans based on the work outcomes of the Measurement, Evaluation, and Program Follow-up Committees.
- Approving the annual report submitted for program evaluation and approved by the College Council (the report was prepared based on the opinions of students and the labor market professionals) to ensure it meets their desires and needs.
- Strive to achieve consistency between the requirements of modernity in application and meeting the needs of students and society.
- Maximizing the use of program evaluation results in making corrective decisions to develop curricula and educational programs.
