

Useful links might be quite helpful in the teaching and learning process for the Chemistry Department

- 1- [What is chemistry? New Scientist](#)
- 2- [Chemistry at Wikipedia](#)
- 3- [AP Chemistry Exam Questions](#)
- 4- [Chemistry Test Index](#)
- 5- [Bishop. An Introduction to Chemistry \(Book\)](#)
- 6- Download scientific research and articles for all specializations and from reputable magazines
- 7- [A Simple Approach to Quantum Chemistry \(Book\)](#)
- 8- Download books in the field of analytical chemistry
- 9- Teaching experiments in chemistry
- 10- Download books on organic chemistry
- 11- Download books on physical chemistry
- 12- Download books on inorganic chemistry
- 13- Download books on biochemistry
- 14- Download books on industrial chemistry
- 15- Download books on polymer chemistry
- 16- Learn experiments in chemistry in all specializations
- 17- How to draw chemical compounds
- 18- How to use the Chem Draw program
- 19- Preparation of polyurethane
- 20- The nature of the crude oil refining system
