Physical Education and Sports Sciences(PESS)		Main Subject :
Physical Education and Sports Sciences(PESS)	Custom Subject	الموضوع اذا لم يكن مذكور الاختصاص
Physical Education and Sports Sciences(PESS)	Specialization	الاختصاص
The Master's program focuses on a range of sport sciences, covering only the theoretical aspects, with a two- years study duration. The first year includes two courses (the preparatory year), during which the student takes six compulsory subjects within the general college specialization. The second course includes six compulsory subjects and one	Program Description	وصف البرنامج

optional subject. Students are required to submit a Master's thesis within the academic year.

Q1: What is the general aim of the Master's program? Q2: What are the expected learning outcomes of the Master's program? Q3: How does the program support scientific research and community service? Q4: What are the career prospects for Master's graduates? Q5: Does the program include a practical	Question 1/5	خمسة اسئلة عن البرنامج
component for sports activities? A1 The program aims to graduate highly competent researchers and academics capable of generating new knowledge in	Answer 5/1	خمسة اجوبة عن البرنامج
the field of sport sciences. To contribute the development of educational and sports policies at local, regional, and international levels.		
A2: The program enables researchers to master both applied and theoretical research skills to produce scientific studies that contribute to the advancement of knowledge in sport sciences. It equips researchers with advanced skills to design training and educational programs, and demonstrate the ability to provide scientific solutions to problems faced by sports and		
educational institutions. A3: The program encourages students to conduct applied research in the fields of physical fitness and health. It organizes workshops and training courses within the community through collaboration with sports and health institutions, aiming to study problems and propose scientific solutions.		
A4 : Graduates of the Master's program can work as university professors and researchers in graduate studies centers.		

Graduates can also assume leadership		
positions in educational and sports		
institutions, providing high-level		
consultancy to decision-makers in the		
fields of physical education and health,		
contributing to the development of		
educational and sports curricula and		
policies.		
A5 : The program does not include a		
physical or skill-based component; rather,		
the focus is solely on the theoretical		
aspects of sport sciences.
