

College of Education for Pure Science – Department of Biology

Postgraduate Students - 2021 - 2022

No.	Student name	Title of Thesis	Supervisor name
1	Aowrad Khudair Abbas	The effect of some insecticides and fungicides on the biological and histological structure of two genus of earthworm Aporetodea trapezoids and Allolobophora longa	Dr. Safaa Mohammed Mahmood
2	Enas Abdullah Ibrahim	Isolation and identification of Candida Spp. Associated with urinary tract infections in women with diabetes	Dr. Rafea Qasim Mohammed
3	Banan Abdulmohsin Taha	A comparative study of toxic effects for three types insecticides on embryonic development broiler chicken Ross 308	Dr. Rabeea Hazim mohammed
4	Jamal Ahmed Younis	The role of heat shock and laser light in cinnamic acid levels and growth of embryogenic and hypocotyl callus of mustard (plants) Brassica juncea L.	Dr. Jamella Hazza Rasheed
5	Mohammed Jamal Abdulrazaq	Effect of some artificial sweeteners on some body tissues, some biochemical parameters, histochemistry and embryos in albino mice	Dr. Ali Ashgar Abed
6	Rulla Sadallah Najim	Physiological and histological effects of cadmium and lead on some organs Alburnus mossulensis fish	Dr. Amaal abdulilah Younis

7	Suzan Othman Omar	Effect of spraying with ascorbic acid on the growth of bean plants grown in soils contaminated with nickel and lead	Dr. Hussein Saber Mohammed Ali
8	Taghreed Hazem Saber	Histological and Physiological Estimation of Adenosine and Dipyridamole in <i>Oryctolagus cuniculus</i> male.	Dr. Ali Ashgar Abed Dr. Faiha Azhar Mohieddin
9	Shaymaa Mohammed Hisham	The effect of some plant extracts is synergistic with titanium dioxide TIO, NPs and phenolic compounds separated from some local plants in controlling two types of store insects	Dr. Adnan Mosa Mohamed Dr. Muthanna Jasim Mohammed
10	Rana Khaled Ahmed	Molecular diagnosis for some of <i>Paenibacillus</i> spp. and investigation on effects for skin bacterial infections control in experimental rats	Dr. Adeeba Younis Shareef Dr. Najwa Ibrahim Khaleel
11	Baidaa Ghanem Mohammed	A biochemical and molecular biological study of nervous stem cells isolated from embryo's brain of <i>Mus musculus</i>	Dr. Nashat Ghalib Mustafa Dr. Ali Ashgar Abed
12	Anwar Fakhri Dhanun	Detection of heat shock gene proteins HSP ₇₀ , HSP ₉₀ , heat transcription factors HSF, and their genetic expression in callus of chickpea <i>Cicer arietinum</i> L.	Dr. Jamella Hazza Rasheed
