## <u>Useful links might be quite helpful in the teaching and learning process for the Chemistry Department</u>

- 1- What is chemistry? New Scientist
- 2- Chemistry at Wikipedia
- 3- AP Chemistry Exam Questions
- 4- Chemistry Test Index
- 5- Bishop. An Introduction to Chemistry (Book)
- 6- <u>Download scientific research and articles for all specializations and from reputable magazines</u>
- 7- A Simple Approach to Quantum Chemistry (Book)
- 8- Download books in the field of analytical chemistry
- 9- Teaching experiments in chemistry
- 10- Download books on organic chemistry
- 11-Download books on physical chemistry
- 12- Download books on inorganic chemistry
- 13-Download books on biochemistry
- 14- Download books on industrial chemistry
- 15- <u>Download books on polymer chemistry</u>
- 16- Learn experiments in chemistry in all specializations
- 17- How to draw chemical compounds
- 18- How to use the Chem Draw program
- 19- Preparation of polyurethane
- 20- The nature of the crude oil refining system
