Natural Sciences	Broad Subject Area	تفاصيل البرنامج الموضوع العام
General Zoology, Analytical Chemistry, Biophysics, General Botany, Organic Chemistry, Safety and biosecurity, Entomology I, Entomology II, Plant Anatomy, Invertebrates, Parasitology, Biochemistry I, Biochemistry II, Microbiology I, Microbiology II, Plant Taxonomy, Plant group, Cell Biology, Soil microbiology, Water microbiology, microbial physiology, Ecology, Mycology, Laboratory analysis (Elective), Pollution, Genetics, Microbial genetics, Medical microbiology, Antibiotics (Elective) Classification and Bacterial groups(Elective) Animal Physiology,	Area	Main Subjects:

Molecular biology, Immunology, Research project		
	Custom Subject	الموضوع اذا لم يكن مذكور الاختصاص
This specialization focuses on applying principles and techniques of microbiology to train professionals who support medical diagnosis, treatment, and research.	Specialization	الاختصاص
The Biology Department at the University of Mosul, College of Science is dedicated to exploring the science of life in all its forms. Over a four-year program, students study the fundamental principles of microbiology, from bacterial metabolism and genetics to ecology, evolution, and pathogenesis. The curriculum combines classroom learning with hands-on laboratory experience, giving students the skills to investigate living systems at molecular levels. By underrating how bacterial cell works, this program prepares graduates for careers in research, healthcare, education, and environmental science.  Students study fascinating topics such as Biotechnology and molecular biology. Alongside the students also explore bacterial biology and understand how they functions.  In this program students spend plenty of time in labs and working on projects that give them hands-on experience. By the time they graduate, students have the skills and knowledge to work in hospitals, research centers, or companies that develop microbiology products.	Program Description	وصف البرنامج
