			تفاصيل البرنامج
	Natural Sciences	Broad Subject Area	الموضوع العام
	The Department of New and Renewable Energy is dedicated to providing a distinguished educational experience, focusing on training students in renewable energy and modern technologies. We aim to develop students' skills in innovating effective and sustainable solutions to address global energy challenges. The department is committed to preparing graduates capable of leading the transition towards clean energy by promoting scientific research and applying sustainable energy technologies. We also strive to align graduates' competencies with labor market needs, contributing to sustainable development, supporting the green economy, and protecting the environment at both local and global levels.		Main Subjects:

		Custom Subject	الموضوع اذا لم يكن مذكور
	Renewable energy	Specialization	الاختصاص
	We aspire to be a leading academic department in the field of new and renewable energy by fostering an innovative educational environment based on cutting-edge scientific and technical curricula. Our vision is to equip students with the skills and knowledge necessary to explore sustainable solutions to environmental and energy challenges. Through research, innovation, and collaboration, we aim to drive sustainable development, train highly qualified professionals, and lead the transition to clean and renewable energy sources. Our commitment lies in offering high-quality education that meets labor market demands, enabling our graduates to pioneer sustainable .energy projects globally	Program Description	وصف البرنامج
