	Bachelor in Medical Physics	Degree Name	اسم الدرجة
	Undergraduate (Bachelor of Science)	Study Level	مستوى الدراسة
	٤ academic years, divided into ٨ semesters according to the Bologna Process.	Course Intensity	نوع الكورس
	Full Time	Study Mode	طبيعة الدراسة
	The department does not offer an MBA program	MBA Program Type	
			تفاصيل البرنامج
	Natural Sciences	Broad Subject Area	الموضوع العام
	General Physics, Electricity and Magnetism, Mechanics, Optics, Thermodynamics, Atomic and Nuclear Physics, Medical Imaging Physics Radiation Physics, Medical Lasers and Laser Applications, Biophysics Molecular Biology, Human Physiology, Biochemistry, Bioelectronics Computer Applications in Medical Physics, Biostatistics, Medical Terminology, Medical Microbiology and Immunology (electives), Medical Parasitology (electives), Research Methods and Scientific Writing		Main Subjects:
		Custom Subject	الموضوع اذا لم يكن مذكور
	This specialization focuses on applying principles and techniques of physics, biology, and medicine to train	Specialization	الاختصاص

	professionals who support medical diagnosis, treatment, and research.		
	<p>The Medical Physics program at the University of Mosul's College of Science is all about combining physics with medicine to help improve healthcare. Over four years, students learn the basics of physics, like how forces work, how light behaves, and the nature of atoms, and then apply those ideas to real-world medical tools and techniques.</p> <p>Students study fascinating topics such as medical imaging (think X-rays and MRI), radiation therapy used to treat diseases like cancer, and the safe use of medical lasers. Alongside the physics, students also explore biology and understand how the human body functions, which is key to applying physics in medicine effectively.</p> <p>In this program students spend plenty of time in labs and working on projects that give them hands-on experience. By the time they graduate, students have the skills and knowledge to work in hospitals, research centers, or companies that develop medical technology making a real difference in patient care and medical innovation.</p>	Program Description	وصف البرنامج
