Lab Safety Rules

Science labs offer great opportunities for learning, teaching, and research. They also pose hazards that require proper safety precautions.

- Proper supervision**
Don't perform lab experiments without instructor supervision unless given permission by the instructor.
- Dress appropriately**
The back long hair, and wear suitable clothing.
- Know location of emergency numbers & safety equipment**
The location of safety equipment & emergency phone numbers, so you can access them quickly if needed.
- No Food**
Don't eat or drink in lab.
- ID Hazards**
Identify hazardous materials before beginning lab.
- Be Attentive**
Be alert and focused on the task at hand. Don't be distracted by cell phones or other devices.
- Be careful when handling hot glassware**
Use proper technique when handling hot glassware. Never formulate liquids away from your face.
- Stay safe when conducting your labs by following these guidelines.**
- Keep a clean workspace**
Clean up spills immediately. Don't leave glassware or equipment in the lab.
- Handle glassware carefully**
Properly dispose of anything that breaks. Don't touch broken glass.
- Clean up**
After completing the lab, clean up the equipment, and wash your hands.

5 steps SAFE TO USE CHEMICALS

- 1 KNOW WHERE THE HEALTH MANUALS ARE STORED**
- 2 STORE CHEMICALS IN SAFE STORAGE**
- 3 STORE CHEMICALS WHEN NOT IN USE**
- 4 STORE CHEMICALS IN ORIGINAL CONTAINER**
- 5 DISPOSE OF CHEMICALS IN RIGHT WAY (ENVIRONMENTALLY FRIENDLY)**

Fire Action

- 1 Raise the alarm**
- 2 Call the Fire Brigade by dialling**
- 3 Leave the building by the nearest available exit**
- 4 Report to assembly point**
- 5 Do not return to the building until authorised to do so**
- 6 Do not use lifts**

Clean & Safe At Work Checklist :

- ☒ Wear Your Head Cap
- ☒ Wear Your Goggle
- ☒ Wear Your Coat
- ☒ Wear Your Mouth Mask
- ☒ Wear Your Gloves
- ☒ Wear Non-Slip Shoes

Ready? Now You Can Start Working

7 STEPS TO SAFETY

During your stay at UPMSC, we want to give you the best care possible. You and your loved ones can help us make sure that you stay safe and recover quickly by following these simple safety steps.

- 1 WASH YOUR HANDS**
Clean hands will help to lower the risk of infection. Your visitors and the people who take care of you at home should also wash their hands or use hand sanitizer often.
- 2 SPEAK UP IF YOU'RE IN PAIN**
Let someone know if you are in pain or if you are having side effects from your pain medicine. Pay attention to how you feel and tell us about your symptoms.
- 3 PROTECT YOUR SKIN**
Change your position in bed often and safely move around as much as you can to prevent bedsores. Check your skin every day and try to keep it clean and dry.
- 4 BE CAREFUL SO YOU DON'T FALL**
Call a nurse before getting out of bed. Get up slowly. Wear non-slip socks, slippers, or shoes that won't slip. Clear a safe path so you have plenty of room to move around.
- 5 TAKE YOUR MEDICINE**
It is important to take your medicine exactly as your doctor tells you. If you have any questions about your medicine or side effects, please ask your doctor.
- 6 GET MOVING**
Ask your nurse how soon you can safely get out of bed. Move your legs and ankles while lying down. Ask your doctor about compression devices or leg pumps to wear while in bed or sitting down to help blood flow in your legs and feet.
- 7 DON'T SMOKE**
If you smoke, talk to your doctor about quitting. Patients who don't smoke recover more quickly.

UPMSC
You are an important part of your care team and we trust that you know your body better than we do. Always ask your team if you are unsure or need something explained. If you are worried about a symptom or side effect, please let us know.

LAB SAFETY PROTOCOLS

Use Protective Gear
Safety Goggles, Lab Coat, Gloves, Closed Shoes

Proper Supervision
Don't perform lab experiments without instructor supervision.

ID Hazards
Always read labels before using any chemicals.

Safety First
Know the location of safety equipment and emergency numbers.

No Food
Don't eat or drink in the lab and never taste chemicals.

Be Attentive
Be attentive while in the lab. Don't leave an experiment in progress.

Handle Glassware Carefully
Properly dispose of anything that breaks.

Clean Up
After completing the lab, carefully clean your workspace and the equipment. Don't forget to wash your hands.

LAB SAFETY REMINDERS

- 1 Always pay attention and listen to your teacher.**
- 2 Use safety goggles and gloves during experiments.**
- 3 Wear proper attire like lab coat and closed shoes.**
- 4 Don't do any experiments without your teacher present.**
- 5 Handle lab apparatus with care.**
- 6 Don't eat, drink, or chew gum in the laboratory.**
- 7 Let's make our laboratory a safe and fun place for learning!**

Lab Safety

It is our joint responsibility to keep the lab clean and safe!

- Authorized persons only in the laboratory**
- Lab coats must be worn**
- Sensible footwear must be worn - no open shoes**
- All accidents and dangerous events must be reported and recorded**
- No smoking of any kind**
- Do not store or consume food or drink in the lab**
- All work must be carried out in accordance with risk assessment**
- Dispose of waste properly in line with policy**
- Keep the lab tidy and emergency routes accessible**
